

## Minimum On-Boarding Requirements for New Suppliers/Contractors

Oasis contractors and service providers will be required to have an account registered with ISN and to demonstrate compliance with Oasis Contractor Management requirements prior to commencing the MSA process. This may require:

- Connect ISN account information to Oasis Petroleum within the ISN system and complete the requirements specific to Oasis Petroleum, *or*
- Set up a new contractor account with ISN – [www.isn.com](http://www.isn.com)
  - If assistance is required contact ISN Customer Service Team at 1-800-976-1303

**Before a contractor is approved to provide services or equipment on any Oasis location or facility, its Company information and safety records shall be reviewed, including:**

- Company Profile
- Health, Safety and Environmental (HSE) Questionnaire
- Review of HSE Programs and compliance documentation
- Supplier/Contractor acknowledgement of Oasis Contractor Management Requirements, including review of Oasis Petroleum EHS Minimum Requirements and Incident Case Management requisite
- Certificate of Insurance (COI), provided for verification
- Safety Orientation Training
  - Oasis requires all on-site contractors to have completed an industry recognized safety orientation training standardized by IADC, PEC, North Dakota Safety Council or the North Dakota Petroleum Council

For any ISN related questions contact ISN Customer Service Team. For any Oasis specific questions regarding Contractor Management, you can contact [EHSCommunication@oasispetroleum.com](mailto:EHSCommunication@oasispetroleum.com).
